September 19, 2005

The Honorable Matt Blunt  
Governor of Missouri  
State Capitol  
Jefferson City, Missouri 65101

Dear Governor Blunt:

I am pleased to submit the Appropriation Activity Report of the State of Missouri for the appropriation year, July 1, 2004 through July 31, 2005.

This report, together with the annual combined financial report of the Missouri Department of Revenue and the Office of the State Treasurer, will fulfill the statutory requirements for financial reporting under Section 32.060 of the Missouri Revised Statutes.

These statements present a comparative analysis of revenues to expenditures and appropriations to expenditures for Appropriation Year 2005. This report also includes a detailed analysis of appropriations and expenditures by departments, fund groups and major categories. This report is prepared on a budgetary (non-GAAP) basis of accounting. Under the budgetary basis of accounting, revenues are recorded when cash is received and expenditures when the liabilities for them are recorded.

Sincerely,

A handwritten signature in black ink that reads "Thomas Sadowski".

Director

**APPROPRIATION YEAR 2005**

---

Each year State departments receive appropriations. These appropriations include expenditures to operate the department, expenditures made for the benefit of other departments and distributions to other entities such as local governments or school districts. The "operating costs" are the expenditures made from the department's appropriations which are used to provide that department's services. The "flow through payments" include expenditures used to fund other entities' or other departments' expenses and distributions to individuals, other entities or other departments for ultimate expenditure.

An analysis of an agency's operating costs gives a better indication of its effectiveness because operating costs are directly controlled by the agency's management. Flow through payments are normally the result of statutory or grant requirements. The spending of these moneys is more directly controlled by the entity or department which receives the flow through moneys.

The schedule on the following page shows that the moneys appropriated to an agency are not totally used for operation of that agency. This schedule shows appropriated expenditures for appropriation year 2005. However, these figures do not include appropriated expenditures of \$1,125,865,388.68 for refunds for overpayment of taxes and fees or investment of State money.

Expenditures for retirement, social security, health care, deferred compensation, reimbursements to Employment Security, statewide insurance, capital improvements, and building and grounds in the amount of \$1,767,001,033.75 have been allocated to the various departments. Most of the funding was appropriated to the Office of Administration.

The expenditures for debt service are segregated as they represent operating expenditures of the State as a whole. These expenditures are normally administered by the Office of Administration.

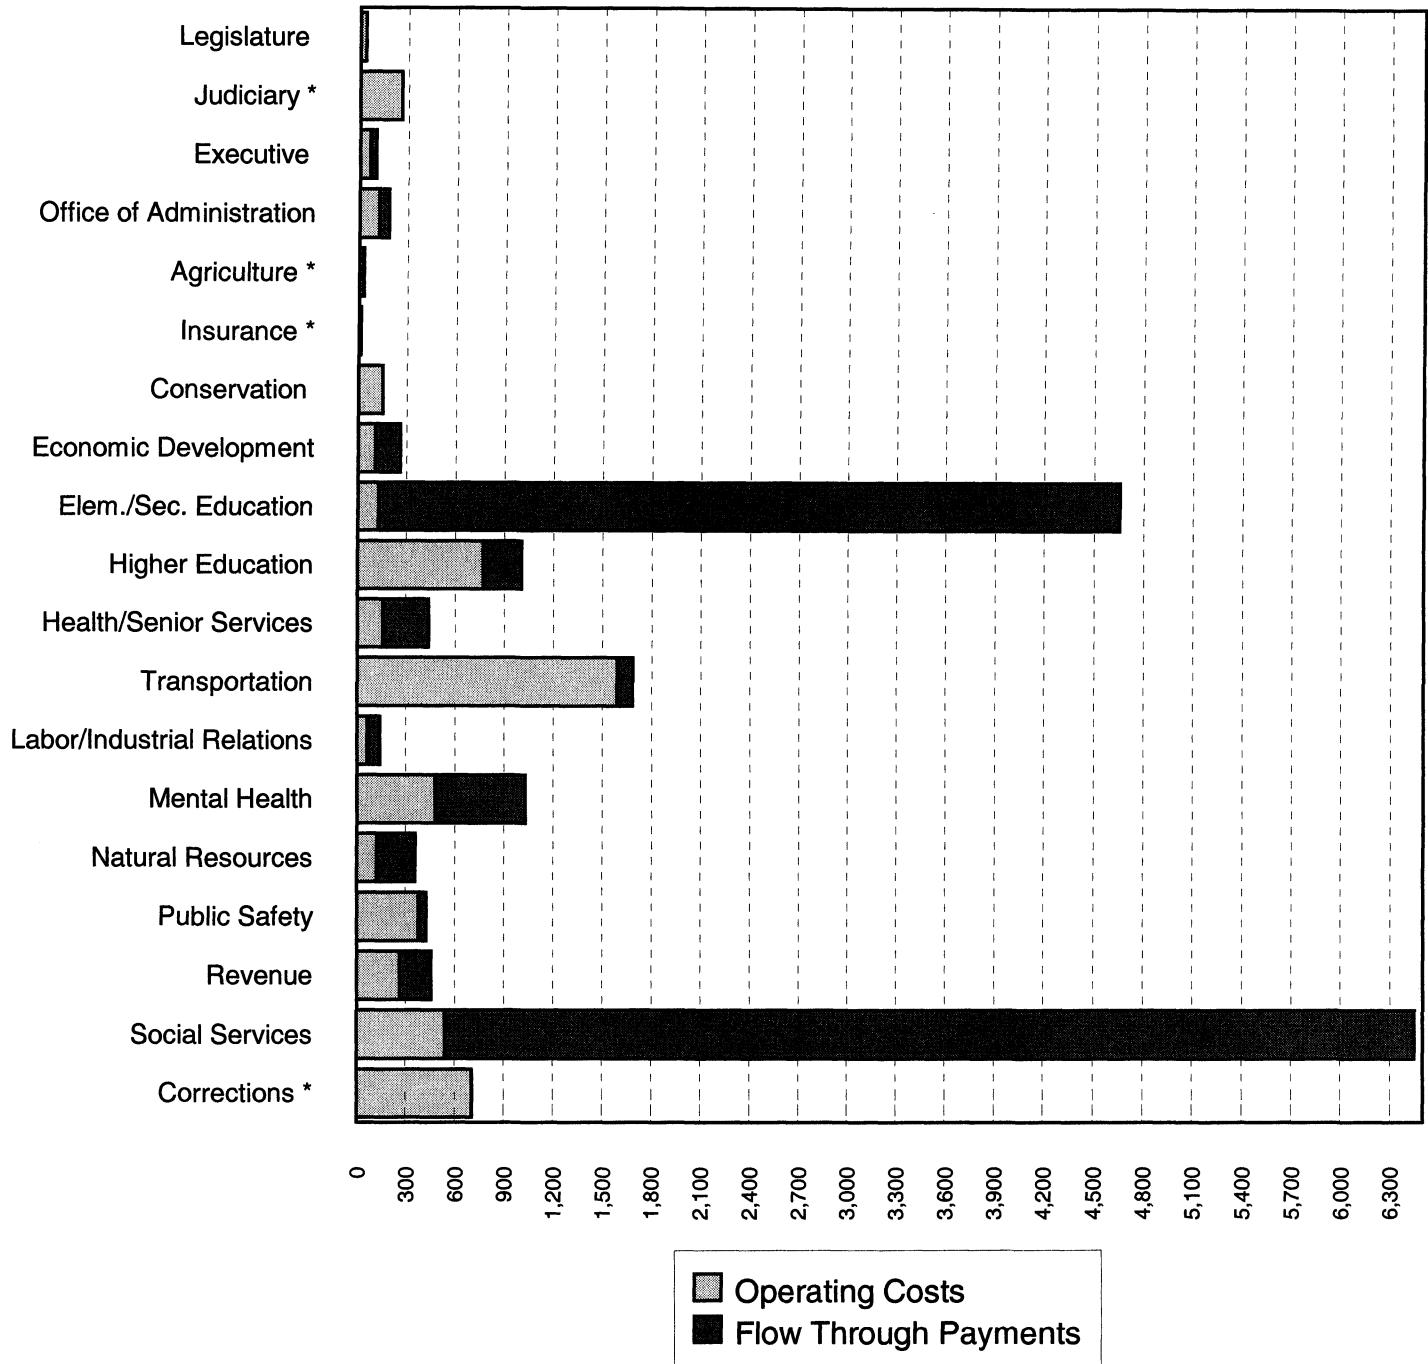

The expenditures for the court ordered desegregation payments (Note 4) are segregated because they are mandated by court order. These expenditures are normally administered by the Department of Elementary and Secondary Education.

**NOTES TO THE APPROPRIATION ACTIVITY REPORT**  
**APPROPRIATION YEAR 2005**

---

**Note 1 – Basis of Accounting**

The Appropriation Activity Report is prepared on a budgetary (non-GAAP) basis of accounting that records revenues when cash is received and expenditures when the liabilities are recorded.

Revenues and expenditures are reported during a twelve-month period, July 1 through June 30. During a one-month lapse period that ends July 31, corrections can be made to the revenues and expenditures processed during the period July 1 through June 30.

**Note 2 – Biennial Appropriations**

Biennial appropriations, which are located in House Bills 13 and 16-20, are appropriations to be spent over two years. The balance after the first year of the appropriation that ended June 30, 2004 was rolled over into the current fiscal year. The appropriation amount reported in the current fiscal year is the rollover amount from fiscal year 2004 plus any increases and less any decreases to the appropriations, which occurred during fiscal year 2005.

Corrections were made to biennial appropriations, thereby increasing the appropriation and reducing fiscal year 2005 expenditures. Adjustments were made to the following appropriations in order to reflect these changes, so that the appropriation amount reappropriated from fiscal year 2004 would match the current year's appropriation balance.

<u>Appropriation</u>	<u>Fund</u>	<u>Agency</u>	<u>Adjusted Amount</u>
1980	0155	421	\$ (7,496.69)
6406	0613	781	(6,761.68)
6405	0415	781	6,761.68

**Note 3 – Article X Distributions/Appropriated Transfers**

Article X, Sections 16 through 24 of the Missouri Constitution establishes a revenue limit for Missouri State Government. When total revenues exceed the limit, income tax refunds are generated. During fiscal year 2005, the State did not refund any money. When refunds are issued, the refunds are initially paid from the General Revenue Fund and various other funds reimburse their share of the refund liability through operating transfers to the General Revenue Fund as appropriated per H.B. 4.035 by the General Assembly.
